VACCINATIONS: All sale females received their annual boosters of 7 in 1 and Pestigard on 25th March 2025.

BRINGING YOUR FEMALE HOME: When our females leave Allawah they will be leaving the security of their mob and the property that has been familiar to them for their whole lives. We recommend that when they arrive at your property you have some other cattle e.g. cows or heifers in the yards so they have company to settle in with. Provide them with good hay and clean water and give them time to rest and recover and become familiar with their new surrounds. Thank you.
